This action is in response to the amendment filed 6/23/05.

Drawings

1. The drawings were received on 6/23/05. These drawings are acceptable.

Claim Rejections - 35 USC § 112

2. With the filed amendment of 6/23/05, the 35 U.S.C. 112 rejection is withdrawn.

Reasons for Allowance

3. Claims 1-12, 14-19, and 21 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed for reasons of record filed 6/23/05 by the applicant. In particular, claim 1 limits the method of manufacturing a semiconductor device to after implanting through the patterned mask, laterally diffusing the doped regions into the substrate, forming bitlines so that the forming and diffusing steps result in laterally diffused doped regions adjacent each bit lines that inhibit leakage current between adjacent pairs of buried bitlines. This limitation, in combination with the other limitations of claim 1 is not taught or suggested by the prior art of record. Kamal (US006479348B1) does not teach diffusing of the implant. Although it would be obvious to anneal the device of Kamal after implanting to repair damage from the implant, this would not inherently result in lateral diffusing and in laterally diffused doped regions adjacent each bit lines that inhibit

leakage current between adjacent pairs of buried bitlines. Kamal is silent as to inhibiting leakage.

Claims 2-12, 14-19, and 21 are allowed as being properly dependent upon allowed claim 1.

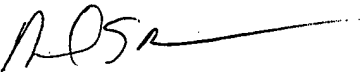

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
